

On-demand, Comprehensive IT Staffing Solutions

1.866.587.2287

## IT Function is Critical to Your Success

Effective IT employees help businesses deliver value to their customers. Today's businesses rely on their IT staff to gain indispensable competitive advantages.

CBTS provides access to highly qualified, experienced, and talented IT professionals for businesses of all sizes. These professionals bring a complete range of skill sets from all IT disciplines to help bridge the gap between operation and staff capacity.

## CBTS Professional Services

### Staff Augmentation

CBTS can provide your business with highly qualified IT professionals who complement your existing IT staff to effectively fulfill IT functions.

### Permanent Placement

With an extensive sourcing network, CBTS can find experienced candidates to fill any IT position in your organization.

### Project-Based Work

CBTS can help your business execute any specific IT project on time and within budget when you lack the required staff or skill sets.

### Short-term Engagement

CBTS' fully certified consultants can help complete any short-term, specifically defined project that is beyond your existing IT capacity.

CBTS Services Overview

1.866.587.2287

## Architecting Technology Solutions

CBTS integrates solutions and services that meet both the operational and financial goals of today’s businesses and organizations.

We will evaluate your IT environment and select the technologies that directly align with your organization. This gives us the ability to create innovative, growth-driven solutions that are tailored to your needs.

## Flexibility Matters

For any business, transformation takes time. That’s why it is so important to work with a provider like CBTS, who can provide flexible solutions. Our investment in state-of-the-art technology and partnerships with world-class vendors makes us one of the most nimble IT providers in the industry.

Whether your goal is to build complex architectures, implement a unified communications strategy, comply with data storage regulatory requirements, or protect your data from unforeseen occurrences, our certified engineers are able to customize and manage your solution.

## What Our Clients Are Saying

*“CBTS has demonstrated every attribute we were looking for in a partner. You can call it the three Cs: Capability, Commitment, and Cost. They have done everything we’ve asked of them with a sense of urgency, and beyond that, they (brought) strategic thinking to us that reinforced our view of them as a partner.”*

**Mitchell Habib, CIO, Nielsen**
